PETITION UNDER 37 CFR 1.47 TO ACCEPT FILING
WHEN INVENTOR REFUSES TO SIGN

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This Petition is being filed for acceptance of the above-identified patent application under 37 CFR 1.47(a). Enclosed with this Petition are the following:

1. A Statement of Facts in Support of Filing on Behalf of the Nonsigning Inventor, signed by a person to whom the refusal to sign was made.
2. A Declaration setting forth the full name, address and citizenship of the non-signing inventor, as well as the full name, address and citizenship of the two signing co-inventors.
3. The Petition fee of \$130.00 (37 CFR 1.17(I)).

4. A copy of an email sent December 20, 2005 to Mr. Keith Minnich (one of the joint inventors) indicating that despite sending the patent application and Declaration twice, the inventor Ramkumar Karlapudi has not signed or returned the Declaration so it could be filed with the U.S. Patent Office. Attached to the email is a copy of the DHL label dated November 28, 2005 sending the application and Declaration to Mr. Karlapudi as well as a copy of the DHL pre-paid return label.

Respectfully submitted,

STATEMENT OF FACTS IN SUPPORT OF FILING
ON BEHALF OF NONSIGNING INVENTOR (37 CFR 1.47)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This statement is made as to the facts that are relied upon to establish the diligent effort made to secure the execution of the Declaration by the nonsigning inventor for the above-identified patent application subsequent to deposit thereof in the U.S. Patent and Trademark Office.

This statement is being made by the available person having first hand knowledge of the facts recited herein. The person making this statement is:

C.K. Tiwari
Vice President
Aquatech International Corp.

EFFORTS TO OBTAIN INVENTOR'S SIGNATURE

The present invention was filed in the U.S. Patent Office on April 18, 2005 and received Serial No. 10/531,752. This application is the U.S. National Stage application of International Application PCT/US2003/03306, filed October 17, 2003, which

international application was published on April 29, 2004 as International Publication WO 2004/035479 in the English language. The international application claimed priority of United States Provisional Application No. 60/419,549 filed October 18, 2002 and U.S. Provisional Application No. 60/419,552 also filed on October 18, 2002.

Shortly after filing the PCT international application, the three named inventors were presented an Assignment document which assigned the entire right, title and interest in the invention and in this application, as well as foreign applications, to Aquatech International Corp. All three inventors named in the PCT international application as the Applicants for the United States designation, executed the Assignment. A copy of the Assignment is attached and it is to be noted that the inventor RamKumar Karlapudi executed the Assignment on December 8, 2003. The Assignment was recorded in the U.S. Patent Office on May 4, 2005.

After entering the National Stage in the United States by filing the present application on April 18, 2005, the inventors Keith R. Minnich and Richard R. Schoen were presented with a copy of the application as filed as well as the inventor Declaration for execution. Both inventors Keith R. Minnich and Richard M. Schoen signed the inventor Declaration on April 20, 2006. However, the third named inventor RamKumar Karlapudi had left the employ of Aquatech International Corp. and thus a copy of the application as filed together with the inventor Declaration was sent to Mr. Karlapudi on or about May 27, 2005 via DHL envelop identified by tracking number 10114137644. However, no response from Mr. Karlapudi was received.

On November 28, 2005, a second attempt to obtain Mr. Karlapudi's signature was made. As evidenced by the attached email from Dawn Pirkel to Keith Minnich, Ms. Pirkel sent another copy of the application as filed together with the inventor Declaration as well as a pre-paid return envelopment via DHL identified by tracking number 3990009574. However, no response was received from Mr. Karlapudi.

Finally, an attempt by me to reach Mr. Karlapudi by telephone was made on May 25, 2006. Mr. Karlapudi could not be reached, and despite leaving a voicemail message to return the telephone call, no return phone call was made by Mr. Karlapudi.

The above facts clearly demonstrate that despite being presented with the application and the inventor Declaration, and despite having an obligation to sign as a condition of employment at the time the invention was conceived, Mr. Karlapudi refused to sign the inventor Declaration. Accordingly, the above facts demonstrate a bona fide and diligent effort was made to obtain the signature of Mr. Karlapudi on the inventor Declaration, but to no avail.

**PROOF OF NEED TO PREVENT IRREPARABLE DAMAGE OR
TO PRESERVE THE RIGHTS OF THE PARTIES**

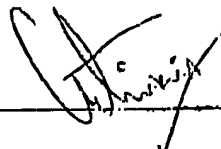

Since a Notification of Missing Requirements Under 35 USC §371 was mailed to Applicant's representative on December 12, 2005, the final date for responding, with extensions of time, is June 12, 2006. Accordingly, unless the U.S. Patent Office accepts the enclosed Petition Under 37 CFR 1.47, the inventors as well as the Assignee will suffer irreparable damage because of the lack of signature by the non-signing joint inventor.

Attorney Docket No.: 4553-00013

WHEREAS, the undersigned inventors (hereinafter referred to as the ASSIGNORS) have made an invention entitled METHOD AND APPARATUS FOR HIGH EFFICIENCY EVAPORATION OPERATION for which application has been filed on 17 October 2003 as International Application No. PCT/US03/33066 and whereas AquaTech International Corporation, (hereinafter referred to as the ASSIGNEE), a corporation organized under the laws of Pennsylvania and doing business at One Four Coins Drive, Canonsburg, PA 15317, US is interested in acquiring the entire interest in said invention.

NOW THEREFORE, in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the full receipt and sufficiency of which is hereby acknowledged, we hereby assign to the ASSIGNEE our entire right, title and interest in the said invention and in and to said application, and in any application(s) based thereon which ASSIGNEE, at its expense, may cause to be filed under an international treaty, or in any international or national patent office, including any extensions, divisions, reissues, continuations and continuations in part of any such application(s), and in any rights of priority which we are entitled to assert.

The ASSIGNORS hereby authorize and requests the national patent offices of countries in which applications are filed to issue any and all Letters Patents resulting from said application(s), or any division or divisions or continuing or reissue applications thereof, to the ASSIGNEE and hereby covenant that they have the full right to convey the entire interest herein assigned and that they have not executed and will not execute any agreement in conflict herewith.

The ASSIGNORS agree to execute all papers necessary in connection with this application and any application resulting from said application and any continuing divisional or reissue applications of such application(s) and also to execute separate assignments in connection with such applications as the ASSIGNEE may deem necessary or expedient. And, the ASSIGNORS further covenant that each of them will at all times communicate to the said ASSIGNEE, its successors, assigns or legal representatives, all facts relating to said invention, applications and Letters Patent, or the history thereof, known to them, and testify as to the same in interferences or other litigation, when requested so to do.

This Assignment shall inure to the benefit of the ASSIGNEE, its successors, assigns and other legal representatives, and shall be binding upon its heirs, legal representatives and assigns.
